Why Business Central needs cloud printing?
All user activities happen in the browser
All reports are processed in the cloud
No easy access to any local printers
No way to orchestrate print jobs
In previous releases
Cloud printing introduced
Tooling for partner extensions added:
Documentation: https://docs.microsoft.com/en-us/dynamics365/business-central/dev-itpro/developer/devenv-reports-printing
Several partner extensions (incl. PrintNode, SharePoint etc.)
Microsoft's extension for email printing (built-in 2020 release wave 2)

What's new

https://events1.social27.com/msdyn365bclaunchevent2021w1/agenda/player/95496

Updated Printer Management page

- Easy way to create or **duplicate** printer settings for each device
- Separated action groups per printer type
- Global actions in one group
- Partners can add more via page customization extensions
  (see sample code in documentation)

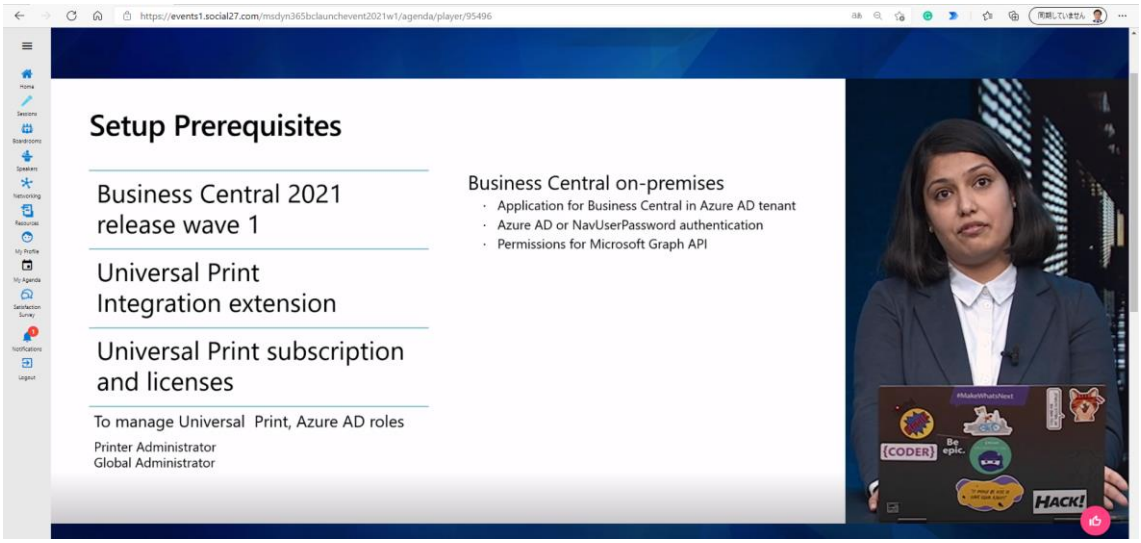
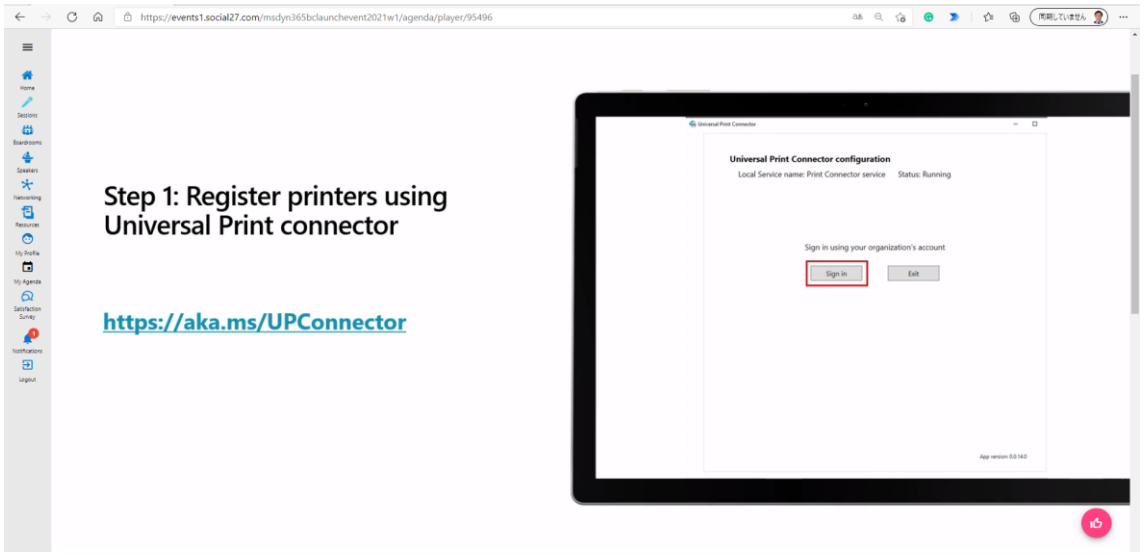
Business Central and Universal Print
Business Central supports printing to any of the printers registered with Universal Print
Direct printing - no downloading PDFs to print
Standard printer management capabilities
Simple setup and no programming
Printing from the web, phone, tablet or any other connected device
Works with all standard and custom reports and documents
Integration is done using Microsoft Graph APIs
Azure Active Directory
Microsoft Graph API
Universal Print
Business Central
Universal Print connector
Universal Print ready printers
Printer (without native UP support)



Setup Prerequisites
Business Central 2021 release wave 1
Universal Print Integration extension
Universal Print subscription and licenses
To manage Universal Print, Azure AD roles
Printer Administrator
Global Administrator
Business Central on-premises
Application for Business Central in Azure AD tenant
Azure AD or NavUserPassword authentication
Permissions for Microsoft Graph API

Setup
Step 1
Register printers using Universal Print connector
Step 2
Manage and share printers via portal
Step 3
Add Universal Print printers to Business Central
Step 4
Set the printer for the report and print



https://events1.social27.com/msdyn365bclaunchevent2021w1/agenda/player/95496
Step 1: Register printers using Universal Print connector

Add Universal Print Printers
Welcome to Universal Print Setup (Preview)
Universal Print is a Microsoft 365 subscription-based cloud printing solution. This setup helps you to add your registered cloud printers from Universal Print into Business Central.
Note that a Universal Print subscription is required and Universal Print needs to be available in your region.
Learn more about Universal Print.
