ライブ

The screenshot shows a video player interface. The main content is a slide from a presentation. The slide title is 'Teaching tips' with the subtitle 'Educate and engage users'. It displays a screenshot of the Microsoft Dynamics 365 Business Central 'Sales Invoice' form. The 'General' tab is active, showing fields for Customer Name, Due Date, Contact, and Posting Date. A tooltip is visible over the 'Contact' field, titled 'Who you are selling to', explaining that it can be an existing customer or a new one, and that special prices and discounts can be applied. Below the form, a table with columns 'Type', 'Location Code', 'Quantity', and 'Unit of Measure Code' is shown, but it is empty. The video player controls at the bottom indicate it is a live stream ('ライブ').

What's new: Extending Business Central's Email Capabilities
Speaker: Darrick Joo

What's new in the Client - for Users
Speakers: Erida Nurce, Mike Borg Cardona, and Blazej Kotelko

This slide features a dark blue background with two main text blocks. The first block, titled "What's new: Extending Business Central's Email Capabilities", lists the speaker as Darrick Joo. The second block, titled "What's new in the Client - for Users", lists speakers Erida Nurce, Mike Borg Cardona, and Blazej Kotelko. To the right of the text, there are five portrait photos of the speakers arranged in a staggered, overlapping layout. A small video inset on the right shows a speaker at a podium.

Microsoft Dynamics 365

What about improvements to help partners scale?

This slide features a dark blue background. At the top left is the Microsoft Dynamics 365 logo. The main text asks "What about improvements to help partners scale?". To the right of the text is a graphic consisting of three overlapping circles in shades of blue and green, and a blue square partially overlapping them. A small video inset on the right shows a speaker at a podium.

Onboarding your customers to Business Central

Speakers: Søren Alexandersen and Jacob Winther

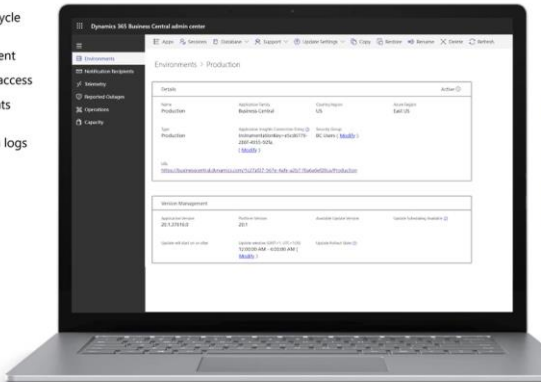

What's new in the Client - for Developers

Speakers: Mike Borg Cardona and Cody Hoover

Keynote | Microsoft Dynamics 365 Business Central Launch Event

Efficient administration

- Manage apps
- Manage environments
- Schedule updates
- Manage update window
- Log support tickets
- Report outage
- Export database
- Restore data back in time
- Manage sessions
- Rename environment
- Access by Security Group
- Move between tenants
- Connect to AppInsights
- Track capacity
- Environment lifecycle telemetry
- Restart environment
- AAD conditional access
- Copy environments across types
- Inspect operation logs

The screenshot shows the Dynamics 365 Business Central admin center interface. The main content area displays a table of environments under the 'Production' category. The table has columns for Name, Application Name, Organization, Location, and Action. Below the table, there is a 'WebSite Management' section with a table showing details for a specific environment, including its name, version, and creation date.

Keynote | Microsoft Dynamics 365 Business Central Launch Event

Announcing: Granular delegated admin privileges (GDAP)

Security feature of Microsoft Partner Center that provides partners with **least-privileged, granular, and time-bound** access to their customers' workloads in production and sandbox environments

Key advantages for Customers

- Select the right level of access for partners (choose from all available built-in roles)
- Full traceability of partner access within the customer's active directory
- Revoke and re-enable partner access at any time

Key advantages for Partners

- Administration access works across regions
- Available for CSP Providers and Resellers
- Can define which users can work with which customers
- Full API support
