Retrieve release plans using the API

Search release plans

The screenshot displays the 'Dynamics 365 and Microsoft Power Platform release planner' interface. At the top, there is a dark blue header with the title and a sub-header 'Find out what's new and planned (PREVIEW) *'. Below this, a navigation bar includes 'All release plans' and 'My release plans' tabs, and a search bar containing the keyword 'AI'. The main content area is divided into three sections: 'Planned' (2 upcoming features), 'Coming soon' (1 upcoming feature), and 'Try now' (5 new features). A sidebar on the left lists various product areas under 'Dynamics 365' and 'Power Platform', with 'Sales' selected. The search results for 'AI' are displayed in a light blue box, showing two items: 'Teams and Outlook collaboration' and 'Sales accelerator and process automation'. The second item is expanded to show the feature 'Improve seller productivity with better quality leads with Data hygiene', which is marked as 'GA' (Generally Available) and scheduled for 'Aug 1, 2022'. A 'Close' button is visible in the top right corner of the search results box.

View release plan changes

The screenshot shows the Dynamics 365 release plan interface. On the left, there is a navigation pane with categories: Dynamics 365 (Sales, Customer Service, Marketing, Audience insights, Connected Spaces, Finance, Fraud Protection) and Power Platform. The main content area is titled "Search result for 'AI':" and lists two items: "Teams and Outlook collaboration" and "Sales accelerator and process automation". The second item is expanded to show details for "Improve seller productivity with better quality leads with Data hygiene". This item is marked as "GA" and has a general availability date of "Aug 1, 2022". The details include a description, a "Learn more" button, and a "Change history" table. The table shows a change in the general availability date from an unspecified date to "Apr 24, 2022".

Change history	Date
General availability date moved to Aug 2022	Apr 24, 2022

Filter and sort release plans

The screenshot displays the 'Dynamics 365 and Microsoft Power Platform release planner' interface. The main header includes the title and a sub-header 'Find out what's new and planned (BETA) *'. Below this, there's a navigation bar with tabs for 'All release plans' and 'My release plans'. The main content area is divided into three sections: 'Planned' (9 upcoming features), 'Coming soon' (5 upcoming features), and 'Try now' (46 new features). A filter and sort menu is open, showing options for filtering by status (New, Changed), for (Admins, Makers, Users), and availability (Early Access, Public Preview, General Availability). The sort menu offers options for availability dates (Early Access, Public Preview, General Availability) and sort order (Newest to Oldest, Oldest to Newest). The background shows a list of release plans, including 'Safest way to digitally transform at whole-company scale' and 'Solution checker enforcement improvements'.

Filter and sort release plans based on multiple criteria.

Criteria selected is maintained throughout entire session.

View release plans in a timeline

The screenshot displays the 'Dynamics 365 and Microsoft Power Platform release planner' interface. The top header includes the title and a note: 'Find out what's new and planned (BETA) *' and '*This is a preview portal experience, your feedback to help us improve is appreciated'. Below the header, there are tabs for 'All release plans' and 'My release plans'. A left sidebar lists categories: 'Dynamics 365 Applications' (with a sub-item 'Sales'), 'Dynamics 365 Commerce', and 'Power Platform'. The main content area shows a 'Planned' section with '0 upcoming features included in release plans', a 'Coming soon' section with '0 upcoming features available next month', and a 'Try now' section with '30 new features recently released to market'. A red box highlights a toggle icon in the top right of this section. Below this, a 'Coach sellers with manager dashboards and improve seller efficiency with seller KPIs' feature is listed with a 'Dec 2021 Early Access' label. A second, larger screenshot is overlaid on the bottom, showing the same interface but with the 'Try now' section selected and a timeline view displayed. The timeline lists months from 'Mar 2022' down to 'Oct 2021', each with a dropdown arrow. A red box highlights the timeline view toggle icon in the top right of this view.

Release plans can now be viewed as a timeline.

Simply toggle back and forth between focus area and timeline views.
